Jenny and team, this looks really good. A couple of comments:

- The info. in the 4<sup>th</sup> bullet for “Context of Forestry” is unclear. The timeframes are 1998 and then 2002-2014. What the message? Is it that nothing has been done since 1998 or that some stuff was done between 1998 and 2002 and nothing since 2002. In the write-ups I’ve read it seems that Oregon did take steps after 1998. We need to be absolutely accurate about whether and what.
- The table is good.

Thank you.

**Subject:** OR CZARA RA briefing draft in progress

Hi Everyone (cc: to Christine),

Here's a draft of the RA briefing based on what we talked about. There's still some finetuning that needs to be done, but hopefully, this gets at the essence of what we all talked about. I added in the goals of the section and talking points to each of the sections to be the take home points. Folks, please comment by tomorrow at 9:30AM.

Christine, FYI, Jayne and I have been working on this with Dave and Alan. Our idea is that we'll have bullet points in the briefing document for background, but will be using the talking points. Please don't share this draft with EPA HQ yet. We're aiming for something by tomorrow morning/noon. We have to fine tune the 1<sup>st</sup> and 3<sup>rd</sup> sections, so I'm going to wait for everyone's comments before sending to Jayne to send to EPA HQ. As we talked about, you can think of there being two parts to the briefing: 1) why Oregon's forestry program isn't sufficient and why that's important environmentally (section 1-3); 2) Ramification of not taking action, CZARA options (Sections 4-7).
